FOOD FOR THOUGHT

"Here lies in a horizontal position the outward case of George Routliegh watchmaker, whose abilities in that line were an honour to his profession. Integrity was the mainspring and prudence the regulator of all the actions of his life. Humane, generous and liberal, his hand never stopped till he had relieved distress. So nicely regulated were his motions that he never went wrong except when set a going by people who did not know his key, even then he was easily set right again. He had the art of disposing his time so well that his hours glided away in one continued round of pleasure and delight, till an unlucky minute put a period to his existence. He departed this life November 14th 1802 aged 57 wound up in hopes of being taken in hand by his Maker and of being thoroughly cleaned and repaired and set a going in the world to come."
